# Spokes

## Spoke Sets From Preston Cycle

We are able to offer a full selection of top quality chromed carbon-steel, polished or chromed stainless steel spoke sets. All our spoke sets feature 6/8 guage construction, and our polished stainless steel sets have spokes and nipples made from different types of stainless material to minimize their seizing to each other. We do suggest the use of anti-seize compound on stainless steel spoke sets.

## Spoke Buying Guide

We show you the variety of stock and custom rims available from Preston Cycle for custom wheel building. Using our illustrations will help you determine which parts you have and then assist you to the spoke set you need. For example; if you have an aluminum 1978-83 FX model front hub, and you want to lace it with chrome steel spokes to the 21" drop centre rim from an FXWG (OEM 43662-80B or PC# **6277**) which is shown in illustration "A", then you would need to use a PC# **925** spoke set. The rim illustration shows the basic rim shape, and the position of the spoke holes in relation to each other.

## Diamond and Twirled Spokes

Chrome Diamond	Chrome Twirled	Stainless Twisted	Use
3714	3710	43700	16" DC (F & R) "A"
3716	3712	43702	21" DC/steel Wide Glide hub "B & E"

## Stainless Steel Twisted 16" Steel Spokes

A set of stainless steel spokes for 16" drop center rims. A new style of twist similar to our "Twirled" spokes.

**43700** Set of 40 spokes and nipples

## 6/8 Gauge Nipple Set

Sold in packs of 40 to fit our spoke sets.

- 43096** Chrome standard
- 43097** As above stainless
- 43098** Chrome extended
- 43099** As above stainless

**Note:** When PC spoke kits are laced to 19" OEM #43001-79 rims PCP 43098 extended chrome spoke nipples must be used as the inside diameter of this rim is larger than others.
