59395

## Road Glide Headlamp Trim
Self-adhesive trim can be installed without removing the headlamp or fairing.

Chrome	Black	Application
59394	59395	FLTR/X/XS, FLTRU 15-on.

Front Turn Signal Extension Harness
Fits all FXST, FLST 11-on and FXD 12-17 models with turn signals mounted under the handlebar switch housing. Allows the installation of taller-than-stock handlebars and the relocation of turn signals. Relocation requires cutting the turn signal wiring that is hard wired to the circuit board in the handlebar switch housing. To use the kit solder on the extension harness, heat shrink the cut wire to prevent a short, then plug the connector end of the harness into the factory connector under the fuel tank.

Hi-Intensity Halogen Sealed Beams for Late Model Spot Lamps

4-1/2" clear, non-fluted 12-volt halogen sealed beams. Stock sealed beams are 22,000 candlepower and 30 watts with a beam spread of 12° horizontal and 7° vertical. These sealed beams are very bright by comparison offering 70,000 candle-power 37.5 watts - beam spread is 7° horizontal and 4° vertical. **56120**

Note: The installation of these sealed beams may cause an excessive drain on your charging system. Please check with a qualified mechanic beforehand. The use of these sealed beams may not be legal in your province, please check your local regulations before installing.

Halogen Sealbeams

Quartz-Halogen sealed beam designed to outperform the standard OEM quartz lamp used since 1982. Fits all 12-volt Harley® models using 5-3/4" headlamps from 65-on. Manufactured to provide OEM specifications for brightness and vibration resistance.

PCP	Description
56100	5 3/4" 50/35 Watt (67698-81A)
56101	7" 65/35Watt (67774-83)

56146

4.5" Clear Spotlamp Bulb Set

Clear 12 volt single single filament sealed beams. Pair.
56146 60 watt with smooth lens

59544

H-3 Halogen Spotlamp Set

Includes 2 H-3 #55 W, 4-1/2" bulbs for installation in stock type spotlamp shells.

PCP	Type
56122	Clear
59544	Blue tint
17280	H-3 bulb

Sealed Beams

T/L 5-¾" H-4 Lamp Assembly
Replaces 68297-05.
56135

7" Round Headlamp Sealed Beam
H4 sealed beam with 12 volt 60/55 watt bulb.
56142   Amber lens and socket
56143   Smoked lens and socket

56143

56142

7" Headlight Bulb Unit
• LED 12 volt bulb
• Black lens plate encircles white lights
• Amber turn signal provision
56128

7" LED Headlamp Unit
LED headlamp only. Shell not included. Fits FLT 85-on & FLS, FLST/C/F 92-on. High beam 1.8 amps, low beam 1.2 amps. USA DOT approved.
56144

7" Headlamp Bulb with LED Ring
Diamond cut beam with H-4 12 volt 60/55 watt clear bulb and white LED ring around the rim. Fits all 7" headlamps. Shell not included.
21089

Replacement 12 volt rectangular bulb with 3 prong connector bulb for caddy headlamp. Fits all 7" headlamps.
17201

H-4 Quartz Bulb

Halogen type fits 5-3/4" and 7" units. Sold each.

PCP	Wattage (L-H)
17007	60/55
17008	100/55
17004	60/55 (Heavy Duty)

Caution: Do not touch any halogen bulb with bare hands during installation or replacement. The manufacturer advises that the light unit not be washed with a water hose as it is not a sealed beam unit.

XENON Boosted H-4 Bulb

Bluish H-4 bulbs offer superior night visibilty. The xenon gas is used to cool the filament and allow the halogen process to produce a higher light output. The special blue coating increases the whiteness of the light with only a trace of blue.

28355	60/55W
28356	100/55W
28352	100/90W
28377	130/90W

Caution: Do not touch any halogen bulb with bare hands during installation or replacement. The manufacturer advises that the light unit not be washed with a water hose as it is not a sealed beam unit.

Rainbow Strobe Insert

Allows lamp to radiate a soft, coloured light to alert drivers. For H-4 halogen bulbs (not included).
28353   Each

Vosla Xenon H4 Headlamp Bulbs

Double the light output of a standard OE halogen H4 bulb without increasing wattage or amperage drawn. Use will not require wiring upgrade.
17275

Halogen Bulb

Replaces 68329-03 on 03-on models.12 Volt, 60/55 watt.
17017

## Chrome Billet License Frame
Fits 4"x7" plates.

59403 With red LED top lamp
21712 With mini LED top lamp

License Plate Frame With Marker Lights
Chrome frame features built-in vertical amber marker lights. Single filament bulbs can be wired as marker lights or turn signals. 8-7/8 OAW x 4-1/4 high. Holes are 5-3/4c/c and 2-3/4 c/c. Recessed for 7-1/4" wide plates.
73002

Chrome Eagle Spirit Lighted License Frame
Chrome license plate frame includes a built-in red light for an extra measure of safety. Made from chrome plated heavy die-cast metal. The central red light may be wired as an additional brake light or running lamp.
45182 Chrome
45183 Chrome with gold plating

Chrome Radii Side Mount License Plate
Side mounting assembly fits 3/4" axle on FXST 86-on.
59232

Chrome Lay Down License Plate Bracket

Bracket backside has a faceted shape that allows for counter-sunk mount holes. Fits XL 73-on, FXD 91-on.
59153

Chrome License Plate Mounting Bracket Kit

One-piece chromed diecast license plate mount replacing the stamped sheet metal license plate mount and bracket on the rear fender. Rubber spacers cushion the license plate from vibration, and allows the mount to follow the profile of the fender, for a cleaner look. Mounts directly to the stock hole pattern on all HD rear fenders 55-on (except FXWG and FXST).
3325   Complete with hardware

Lay Down License Plate Bracket 97-on
Fits Road King 97-on.
59893

License Plate Bracket

Chrome license plate bracket (mounting above taillight) as used on all BT & Sportster 55-up (except FXWG and FXST).

PCP	Description

Signal Module

Badlands Load Equalizer 3

Solid state, waterproof unit is specially designed for use with Harley-Davidson models equipped with the TSSM Security/Alarm module or the TSM turn signal module. This unit is also compatible with most custom turn signals. This unit allows the use of 4 way flashers for any amount of time and will allow the security system to properly operate. Works with Halogen or LED signals and eliminates erratic blinking of signals.

28473   FLH 88-13, FXST 91-10, Dyna 96-11 (Badlands)
21821   FLT 88-13, FXST 91-10, Dyna 96-11, XL 91-03
            Volt-tech
21857   FLH 97-13, FXST 96-10, Dyna 97-11 (Badlands)

Badlands Illuminator Pro Model 73-90

This module control features automatic cancelling of signals, front running lights, rear running lights, brake light function, and front and rear turn signals on single filament halogen, incandescent or LED bulbs. Includes a built-in load equalizer that runs LEDs up to 70 watts per lamp and an emergency flasher mode that does not build up heat. (ILL-PRO-111)
28477

Badlands Illuminator

Convert your rear turn signals or marker lights into additional brake lights to increase your visibility. The illuminator maintains turn signal function and has a built-in load equalizer that works with stock or the smallest custom marker lights.
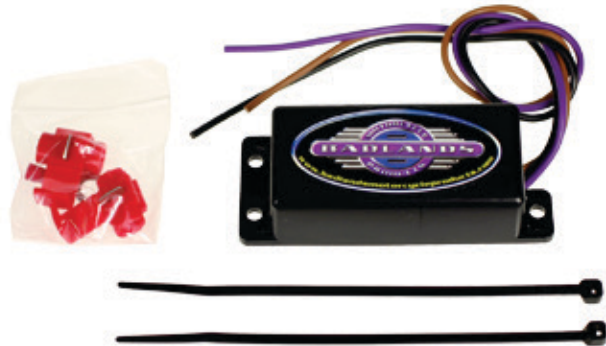

PCP	Application
28472	All FL, FX 73-95, FLHT 91-13; and custom wiring
28478	FXST, FXR, FLST 86-96; FLT 86-90
28479	FXST, FLST 97-10; FXD 96-12, FLT 97-13, XL 97-03
28480	XL 04-13

Badlands Turn Signal Load Equalizer

This electronic unit will correct amperage draw on 91-on models with self cancelling turn signals allowing the use of custom marker lights. This unit will work on most pre 1991 models also but is necessary on 91-99. Includes hardware and instructions. (LE-01)
**28465**

Badlands Turn Signal Load Equalizer II

This updated unit performs the same functions of the standard unit but also allows for emergency flasher functioning. Fits BT 91-99 with custom turn signals installed.
28471   91-99 with self-cancelling turn signals
*Use Load Equalizer III on 00-on and bikes with security systems. Use Equalizer III on 91-on with LED's

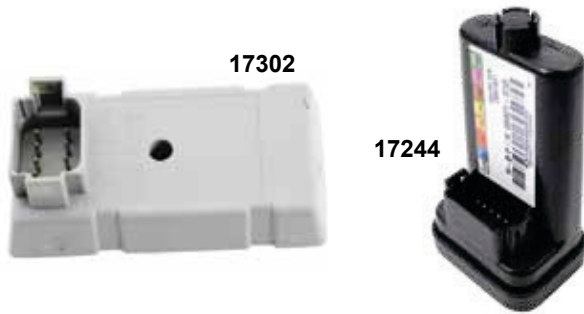

Badlands Automatic Turn Signal Shut-Off for 73-90

Unit allows the turn signals to activate at the touch of a button. Signal will flash for approximately 9 seconds and then automatically shut off; if more signal time is required simply re-touch signal button again. Runs LED's, halogen and incandescents. Up to 70 watts/side.
28105   Kit (ATS-03)

Turn Signal Control Unit
Turn signal self-cancelling control unit replaces stock unit
17301   FLH 94-95, FLT 94-00 (68570-94B)
17302   All models 96-00 (68540-96)
17244   FXST 01-on (68921-01D)

Badlands Plug-In Automatic Signal Canceller
Turn signal cancelling module is available with 3 different plug-in styles to fit most commonly used models. Use this module to replace a broken OEM module or when installing a custom speedo or gas tank. Module can be manually cancelled at any time but, automatically cancels signal after 9 seconds of flashing. Offers a built-in solid state flasher for emergency flasher mode and a built-in load equalizer that runs LED's up to a 100 watts each side. Measures 2-7/8"L x 1-3/8"W x 7/8" D.

PCP   **Application**
28474   10 pin (87-93 models and 87-90 FLT)
28475   8 pin deutesch (94-03 models)
28476** 12 pin deutesch (94-10 models)
**Tech note: Newer factory bikes run the ignition circuit thru the 12 pin security & self cancelling modules. Consult your service manual schematic, to make sure your model does not include this circuit. You can not use this 12 pin module if your security or self cancelling module includes this circuit

Badlands Plug-N-Play Load Equilizer
• Prevents rapid flashing of turn signals
• Fits XL 04-13 models (LE-03-C)
21858

21859

Intensifier Hi-Low Modules
Convert single function LED, halogen or incandescent bulbs to dual function.
PCP   **Application**
21859   Single input/single output will run single or multiple driving lights for high & low, single or multiple marker lights for run & stop. Also can use for run&turn on a pair of turn signals if two units are used. Will run up to 50Watts total for driving lights. (1HL-01)

21860   Dual inputs/dual output will do run&stop, high&low. Also can use for run&turn for a pair of turn signals with one module. Runs up to 100Watts total for driving lights. (1HL-02)

21860

Turn Signals

4986

Turn Signal Load Equalizer

Equalizer is an electronic unit designed to return amperage draw to the correct factory specifications when marker lights are used to replace stock turn signals on all models with self cancelling system 91-99. Has 2 yellow wires for lamps and 1 black wire for grounding. Order flasher separately. Not for use with LED lights.

Complete Turn Signal Kits
To make it easier for those of you who are builders, we've gathered together all of the turn signal components you'll need under two versions. Both versions include the identical clamps and support hardware necessary to mount the turn signal housings to your handlebars and fender struts. Lamp units are the only difference. One version features late-model (1986-99) housings and amber lenses and dual-filament bulbs for the front and rear, and the other version features early-model (1973-85) housings with amber lenses and single-filament bulbs.
6541 Kit with early lamps and single-filament bulbs 73-85
6540 Kit with late lamps and dual-filament bulbs FX-FXR-Sportster 86-99. Can also be used to upgrade 73-85

17309
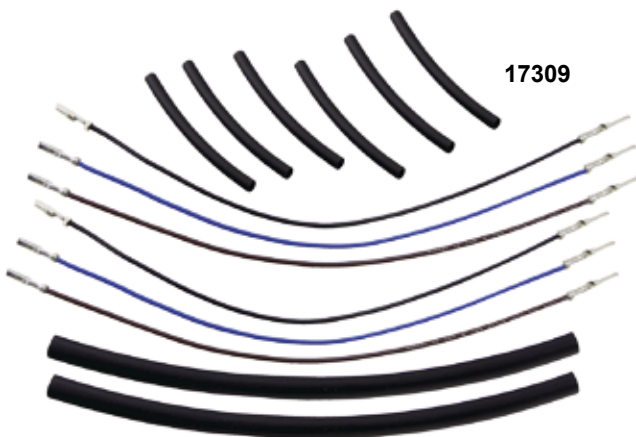

Front Turn Signal Extension Harness Kit
Extension harness is used for installing taller handlebars on all models when keeping the turn signals mounted on the handlebar switch housings. Fits FLST, FXST 96-10, FXD 96-11, FLT 96-12 & XL 96-on. No crimping required. De-pin factory harness connector and install the new extension harness.
