Tires

Dunlop D402 (HD Logo)

Fitted as Original Equipment to 2000 and later Harley-Davidson® motorcycles, and are approved for use on many models as far back as 1980. Feature computer optimized tread patterns which provide dramatic improvements in wet-road performance. Three-ply polyester carcasses are reinforced with two fiberglass belts. Tube/tubeless construction.

SAFETY WARNING: MAINTAIN RECOMMENDED TIRE PRESSURE AND FOLLOW OWNERS MANUAL

All tires should be mounted only by trained personnel. Consult tire manufacturer's publication(s) for information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information found in the manufacturer's brochure(s) and on manufacturer's website(s).

Failure to follow manufacturer's recommendations and requirements can cause tire failure resulting in serious injury or death.

Make sure to select a tire that meets the load and speed requirements for the application it is intended for.

Dunlop American Elite Touring/Cruiser Tires

- H-D replacement tire designed, tested and made in America
- Multi-Tread (MT) rear tire built with long wearing compound in center of tread and lateral-grip compound in each shoulder to maximize cornering performance
- Tread design provides even tread wear and quiet operation in all conditions, both wet and dry
- H-Rated for speeds up to 210 km/h (130 mph) or V-rated for speeds up to 240 km/h (149 mph)

Make sure to select a tire that meets the load and speed requirements for the application it is intended for.

Dunlop GT 501 Sport Bias Tires

- Bias-ply construction & radial style tread pattern
- Optimized profile, larger contact patch for improved cornering & smooth side-to-side transitions
- Higher tread-to-void ratio delivers superior grip in dry conditions, with no loss of grip in wet weather. Increased centre tread depth provides improved wear characteristics and enhanced water clearance. Improved rear compound increases wear resistance for longer tread life.

SAFETY WARNING: MAINTAIN RECOMMENDED TIRE PRESSURE AND FOLLOW OWNERS MANUAL

All tires should be mounted only by trained personnel. Consult tire manufacturer's publication(s) for information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information found in the manufacturer's brochure(s) and on manufacturer's website(s).

Failure to follow manufacturer's recommendations and requirements can cause tire failure resulting in serious injury or death.

Make sure to select a tire that meets the load and speed requirements for the application it is intended for.

Inner Tubes

Rim Strips

Heavy, thick, rubber rim strips that offer maximum protection for any size inner tube.

Spokes

Spoke Sets From Preston Cycle

We are able to offer a full selection of top quality chromed carbon-steel, polished or chromed stainless steel spoke sets. All our spoke sets feature 6/8 guage construction, and our polished stainless steel sets have spokes and nipples made from different types of stainless material to minimize their seizing to each other. We do suggest the use of anti-seize compound on stainless steel spoke sets.

Spoke Buying Guide

We show you the variety of stock and custom rims available from Preston Cycle for custom wheel building. Using our illustrations will help you determine which parts you have and then assist you to the spoke set you need. For example; if you have an aluminum 1978-83 FX model front hub, and you want to lace it with chrome steel spokes to the 21" drop centre rim from an FXWG (OEM 43662-80B or PC# **6277**) which is shown in illustration "A", then you would need to use a PC# **925** spoke set. The rim illustration shows the basic rim shape, and the position of the spoke holes in relation to each other.

Diamond and Twirled Spokes

Chrome Diamond PCP	Chrome Twirled PCP	Stainless Twisted PCP	Use
3714	3710	43700	16 "DC (F & R) "A" 36-04
3716	3712	43702	21" DC/steel + alloy FXST, Wide Glide hub "B & E"

Stainless Steel Twisted 16" Steel Spokes

A set of stainless steel spokes for 16" drop center rims.

A new style of twist similar to our "Twirled" spokes.

43700 Set of 40 spokes and nipples 36-04

Spoke Sets

S.S	Application
43706	16" Drop centre, steel spools 36-04
43716*	18" "B" rim & 19" "C & D" rim

*Buchanan

6/8 Gauge Nipple Set

Sold in packs of 40 to fit our spoke sets.

PCP	Type	Finish
43096	Standard	Chrome
43097	Standard	Stainless
43098	Extended	Chrome
43099	Extended	Stainless

Note: When PC spoke kits are laced to 19" OEM #43001-79 rims PCP 43098 extended chrome spoke nipples must be used as the inside diameter of this rim is larger than others.

Note:

All spokes on wheels need to be inspected and re-torqued after 500 miles on original installation.
